POWER SUPPLY ADAPTER FOR RING VIDEO DOORBELL AND RING VIDEO DOORBELL PRO MANUAL

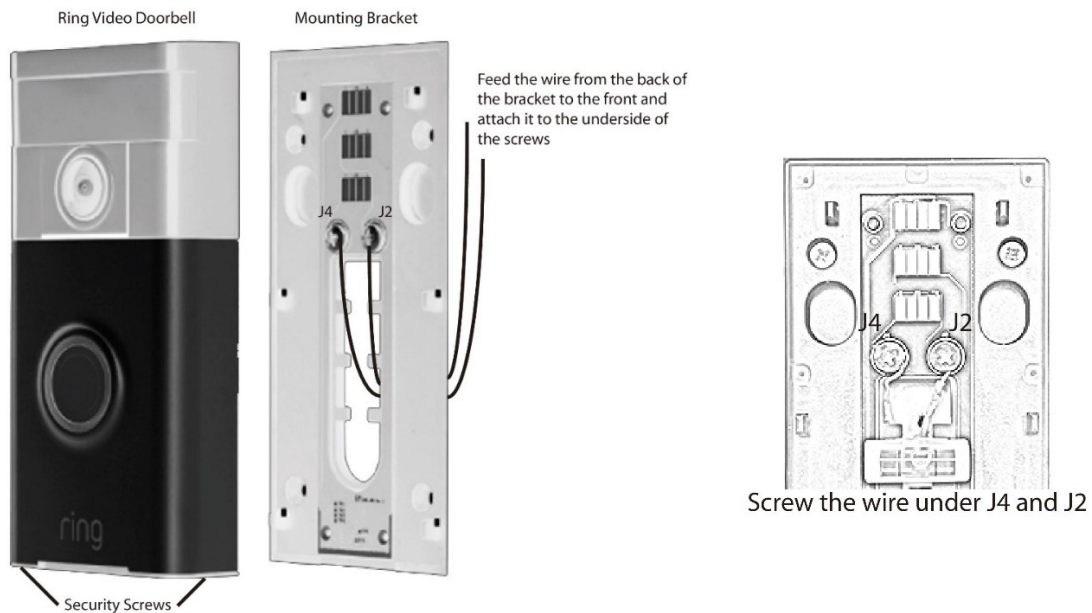

PRODUCT SPECIFICATION

Input: AC120V 60Hz (US) / AC230V 60Hz (UK)

Output: AC18V 500mA

Cable Length: 1.50m

RING VIDEO DOORBELL

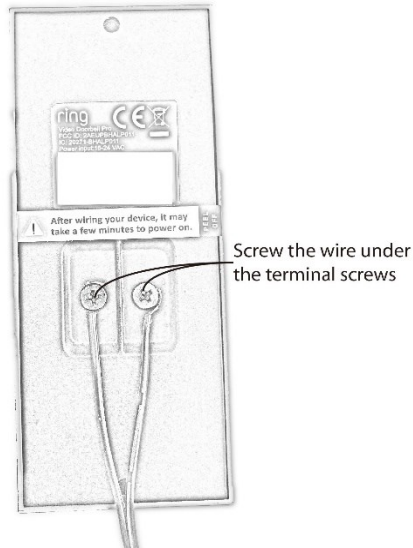

1. Make sure that the power is NOT connected.
2. Before setup, please ensure that the Ring Video Doorbell is well charged.
3. Connect the Wasserstein doorbell wiring to the terminal screws (J4 and J2) located on the mounting bracket, using the screw driver provided in the original installation package. Feed the wire from the back of the bracket to the front and attach it to the underside of the screws. Screw the wire under J4 and J2. **There is no specific side in which the wires are required to be connected.**
4. Install the mounting bracket to your desired location.
5. Place the Ring Video Doorbell onto the Mounting Bracket (slide up and click).
6. Tighten the security screws at the bottom of the device.
7. Connect the adapter to the power supply.

- 8 The Ring Video Doorbell may require a few minutes to power up. The white circle will appear when the device is in power.
- 9 You can monitor the health of the device through the Ring App.

RING VIDEO DOORBELL PRO

-
1. Please make sure that power is NOT connected.
 2. Connect the Wasserstein doorbell wiring to the terminal screws located at the back of the Ring Video Doorbell Pro, using the screw driver provided in the original installation package. **There is no specific side in which the wires are required to be connected.**
 3. Install the device to your desired location.
 4. Connect the adapter to the power supply.
 5. The Ring Video Doorbell may require a few minutes to power up. The white circle will appear when the device is in power.
 6. You can monitor the health of the device through the Ring App.
