Overview

Introduction

Data and the information created from data elements contribute to valuable knowledge about service use and client demographics. It is a source for Area Agencies on Aging (AAA), California Department of Aging (CDA), and U.S. Administration for Community Living (ACL) performance measures.

Background

AAA staff spends a large percentage of their time reading, completing, processing, and retrieving forms created or received by the agency.

Forms are an important part of the operations that aid in the collection and documentation of information. Well-designed and well-managed forms can reduce errors and save time and money.

Purpose

The purpose of this guide is to help AAA staff identify the required ACL and CDA Title III data elements. This guide provides AAAs with guidance, resources, and sample layouts and forms to help AAAs evaluate and design agency intake forms.

NOTE: *This guide does not address Community Based Service Programs (CBSP), Health Insurance Counseling and Advocacy Program (HICAP), Multipurpose Senior Services Program (MSSP), Long-Term Ombudsman Program, Senior Community Services Employment Program (Title V), or fiscal forms.*

Data Performance Reporting Requirements

Purpose

The Older Americans Act (OAA) requires a report of statistical data reflecting the number of service units provided and the number of registered clients or the estimated clients/audience reached.

Process

Data Performance Management Process

Entity	Role
Provider or AAA	• collects and tracks client/user information and service units • reports service utilization units, consumer demographics and expenditures • maintains records
AAA	• plans and administers OAA data management system(s) • implements CDA data reporting requirements • develops and maintains written procedures • analyzes, corrects, and verifies data • monitors and evaluates local services • trains staff and provides technical assistance to the providers, clients, and caregivers • reports data to CDA via the statewide California Aging Reporting System (CARS)
CDA	• sets data reporting standards • monitors and evaluates AAA programs • plans and administers the CARS • provides AAAs with training and technical assistance as needed • reports data and program information to ACL and the California State Legislature
ACL	• provides Congress, states, and other stakeholders with Older Americans Act Performance System (OAAPS) data

CARS Approval

AAAs shall assure that all data submitted is complete, accurate, timely, and verifiable.

AAA staff must approve CARS File Upload quarterly data and SPR annual data within 10 days of notice of passed status. If the data cannot be corrected within 10 days, AAA staff must provide an explanation in the comments box on the report screen. CDA will be able to review the data after the 10-day approval period.

OAAPS Validation

As part of the annual year-end performance reporting process, the AAA Director, or designee, will be required to validate the OAAPS data.

What is Reviewed?

CDA reviews the accuracy and completeness of the reported data on a regular basis. CDA reviews intake and assessment forms, reporting performance information, supporting documents, and reporting procedures during the CDA monitoring process.

AAAs shall keep complete records/documents on file to support all reports submitted to CDA. All paper and electronic client information records, data elements, and printouts collected are confidential and shall be secured and remain protected from unauthorized disclosure.

Designing Forms that Work

Introduction

The arrangement of the questions on the form will make it easier to enter, complete, and retrieve information.

Group Data

Group related items with clearly defined sections to make the form easier to fill out. It can also eliminate the need for backtracking and reduces incomplete or missing data elements.

Databases may have separate data entry screens for:

- Client Detail Identification
- Activities of Daily Living (ADLs) and Instrumental Activities of Daily Living (IADLs), and/or
- Nutritional Risk Assessment

Establish Item Sequence

Arrange questions in a sequence that will match the structure of the database configuration. This will allow for easier data entry from one section to the next without having to search the form for the correct entry area.

Make Required Questions Clear

Make required data elements clear and visible. Design forms to clearly define form fields with bound boxes and headers.

What is Reviewed?

CDA reviews AAA forms to ensure all required data collection elements are integrated. See Chart Guidelines.

Required Title III B and C (Clusters I & II) Registered/Restricted Client Fields

Rural Designation

The Administration of Community Living (ACL) requires that rural designation now be determined by Rural-Urban Commuting Area (RUCA) codes. These codes classify census tracts using measures such as population density, urbanization, and daily commuting. Each zip code has a corresponding RUCA code. The zip code files are available on the resource page of the OAAPS.

Rural RUCA codes: 4.0, 4.2, 5.0, 5.2, 6.0, 6.1, 7.0, 7.2, 7.3, 7.4, 8.0, 8.2, 8.3, 8.4, 9.0, 9.1, 9.2, 10.0, 10.2, 10.3, 10.4, 10.5, and 10.6.

Non-Rural RUCA codes: 1.0, 1.1, 2.0, 2.1, 3.0, 4.1, 5.1, 7.1, 8.1, and 10.1.

To find more information on RUCA codes visit the USDA Economic Research Service's Rural-Urban Commuting Area codes website at www.ers.usda.gov/data-products/.

Unique Participant ID

ACL requires that State Units on Aging (SUA) report the total unduplicated clients who were served in registered/restricted services. The most accurate method to avoid duplicating information is by assigning a unique participant identifier to a client (generally, each AAA data management system creates this identifier once the minimum data elements are entered into the system). All services received by the client can be tracked by tying them to the client's unique participant identifier.

When developing a unique identification number, AAAs must ensure that personal, sensitive, and confidential information is protected from inappropriate or unauthorized access or disclosure. AAAs must have written confidentiality procedures to ensure that no personal information is disclosed by the AAA or provider without the informed consent of the client.

OAA services cannot be denied to eligible clients if they do not wish to disclose their information.

The unique "Participant ID" must be collected as an integer.

Termination Date

This is the date on which the participant stopped receiving a service. This date must be collected as YYYY-MM-DD.

Termination Reason

This field identifies the reason for terminating services (i.e., deactivating a client).

Reason for Deactivation CARS Options

- Deceased
- No Longer MSSP Eligible
- Moved out of Service Area
- Will not Follow Care Plan
- No Longer Desires Services
- On Hold
- No Longer SNF Certifiable
- Past Active
- Institutionalization
- On Waiting List
- High Cost of Services
- Other Reason

Federal Poverty Determination

Introduction

While the OAA is concerned with the provision of services to all older persons, it requires assurance that preference is given to older individuals with greatest economic or social need, with particular attention to low-income minority individuals.

Under the OAA, "greatest economic need" means the need resulting from an income level at or below poverty levels established by OMB.

ACL uses the Federal Poverty Guidelines for targeting and reporting.

Service Categories Required

The following are the programs that require collecting poverty status for registered/restricted clients, or FCSP caregivers *and* care receivers.

Title III B, C, and D, Supportive and Nutrition Services

- Personal Care

What to Include?

Create a question to determine if the client, caregiver, or care receiver is at or below 100 percent of the federal poverty level.

Information is self-reported and collected annually.

What is Reviewed?

CDA will review demographic data to determine if AAAs are reaching individuals who are at or below the federal poverty line.

Use one of the examples below or create one. If the form does not list the federal poverty amounts, include an instructional sheet.

Resources

The U.S. Department of Health and Human Services (HHS) updates information periodically. The Federal Register Poverty Guidelines are normally published in late January each year. The guidelines can also be found on the Assistant Secretary for Planning and Evaluation website at www.aspe.hhs.gov/poverty-guidelines.

Activities of Daily Living (ADL) and Instrumental Activities of Daily Living (IADL) Functional Impairment Status

Introduction

OAA programs use the Activities of Daily Living (ADL) and Instrumental Activities of Daily Living(IADL) functional impairment scale to identify individuals with functional limitations. AAAs must also review functional limitations to determine eligibility for the provision of FCSP Caregivers of Older Adults Respite Care and Supplemental Services.

The OAA preference is to give services to older individuals with greatest social need. The term "greatest social need" means the need caused by non-economic factors that include

(A) physical and mental disabilities
(B) language barriers
(C) cultural, social, or geographical isolation, including isolation caused by racial or ethnic status that
    (i) restricts an individuals' ability to perform normal daily tasks
    (ii) threatens such individuals' capacity to live independently

Service Categories Required

The table below lists the programs that require ADL and IADL limitation status for registered clients.

Title III B and C-2, Supportive and Nutrition Services

- Personal Care
- Homemaker
- Chore
- Home-Delivered Meals
- Adult Day Care/Health

- Home Modifications
- Legal Consultation
- Assessment
- Registry
- Consumable Supplies

What to Include?

Create six (6) ADL and eight (8) IADL questions with the functional ability rating scale to determine the impairment level of the applicant or client.

Information is self-reported and collected annually. Conduct reassessment as needed, based on changes in the client's status within the year.

NOTE: Arrange questions to match database entry sequence.

How to Determine Score?

ACL defines "impairment in Activities of Daily Living (ADL)" as the inability to perform one or more of the following six activities of daily living without personal assistance, stand-by assistance, supervision, or cues: eating, dressing, bathing, toileting, transferring in and out of bed/chair, and walking.

ACL defines "impairment in Instrumental Activities of Daily Living (IADL)" as the inability to perform one or more of the following eight instrumental activities of daily living without personal assistance, or stand-by assistance, supervision or cues: preparing meals, shopping for personal items, medication management, managing money, using the telephone, doing heavy housework, doing light housework, and transportation ability (transportation ability refers to the individual's ability to make use of available transportation without assistance).

The ADL and IADL functional ability rating scale is applied to each question. The CARS system will count the number of ADLs and IADLs where verbal or human assistance is required. An applicant's or client's sum determines the overall level of functional impairment.

- If the Combined Total Number of ADLs & IADLs is **0**
  Then Client is **independent, has no functional limitations.**
- If the Combined Total Number of ADLs & IADLs is **1-2**
  Then Client is **impaired, has minimal or mild functional impairments.**
- If the Combined Total Number of ADLs & IADLs is **3 or greater**
  Then Client is **severely disabled and vulnerable to loss of independence.**

What is Reviewed?

CDA will review demographic data to determine if the AAA is reaching individuals who are functionally impaired.

To qualify for Title III E, FCSP Caregivers of Older Adults Respite Care and Supplemental Services care receivers must have two or more ADL limitations or a cognitive impairment.

The OAA defines “frail” as an older individual that is functionally impaired because the individual “is unable to perform at least two ADLs without substantial human assistance, including verbal reminding, physical cueing, or supervision; or due to a cognitive or other mental impairment, requires substantial supervision because the individual behaves in a manner that poses a serious health or safety hazard to the individual or to another person.” (Section 102(a) (22))

Nutritional Risk Assessment

Introduction

Title III C Congregate and Home-Delivered Meal programs are required to perform a nutrition risk screening to identify individuals at nutrition risk or at risk for malnutrition. OAAPS reporting requirements define a person at nutritional risk as one who scores six or higher on the Determine Your Nutritional Risk Checklist (hereafter referred to as the “DETERMINE Checklist”) published by the Nutrition Screening Initiative (NSI).

Service Categories Required

The following programs require collecting the nutritional risk scores for registered clients.

- Home-Delivered Meals
- Congregate Meals
- Nutritional Counseling

What to Include?

Title III C nutrition programs shall only use the DETERMINE Checklist to evaluate the client’s nutrition risk score.

The nutrition risk questionnaire must be filled out at initial intake or registration along with other client information then reported through the data collection system. After initial intake/registration, annually update and report nutrition risk information and other basic client data.

How to Determine Score?

Each question has a weighted point value. The sum determines the reported nutritional risk score.

- A score of **0-5** indicates **no** or **low nutritional risk**
- A score of **6 or greater** indicates **high nutritional risk**

What is Reviewed?

CDA will utilize data to evaluate the nutritional risk level of C-1 and C-2 participants.

DETERMINE Checklist

The following is the DETERMINE Checklist with weighted/scored values. The DETERMINE Checklist questions must be asked as written and, in the sequence, presented. Any rewording or reordering of the questions will invalidate the results of the screening tool.

Introduction

Some OAA programs do **not** require collecting any client-level demographic information. Theseprograms target groups or provide sensitive services that may make client-level data collection difficult.
